

Measuring The World
Ode To Freedom

AQUILA-360

- SAFE
- DURABLE
- ECO-FRIENDLY
- SMART

— Exquisite Life Experience

- The ultimate luxury of freedom lies in stopping wherever you want -- pull over to camp by a mountain, forest or lakeside, and step out to be greeted by the fresh, earthy scent of foliage all around; wander into a cozy, lively town, park your RV to savor authentic local treats, then retreat to your very own private haven. You're fully in charge of every stretch of the journey, free to soak up every beautiful sight to your heart's content.
- The RV is fully equipped with all the essentials -- soft bed, functional kitchen and bathroom areas. They not just satisfy all daily needs, but also embrace the cozy comfort that elevates a nomadic life into a warm, lively experience, with no compromises.

— Product Design Concept

▪ **Sturdy Body, Reliable Protection :**

Craft from high-strength materials, the vehicle body features a stable structure that safeguards your journey.

▪ **Comfort Space, Cozy Mobile Living:**

The interior space is reasonably planned, creating a warm living environment, and providing a comfortable resting space for long journey.

▪ **Complete Configurations, Convenient**

Travel: Facilities including water, electricity, kitchen and bathroom are fully equipped, satisfying daily mobile living needs, and ensuring a worry-free journey.

Design That Serves Life

Clever layout
A rich design that serves life

The interior exudes a lavish atmosphere, featuring extensive leather upholstery of commercial vehicle grade. The bedroom and living areas in the RV are cleverly planned, equipped with cozy bed and soft sofa.

The areas on two sides house a kitchen and a toilet, meeting basic needs during journey with complete infrastructure; The "dual top-and-bottom tailgate" design at the rear opens a wider view; Additionally, an aroma diffuser enhances the journey quality and enables a comfortable living experience.

— Configuration Table

Chassis configuration	Standard/Option
Self-developed hot forming vehicle frame	●
AL-KO torsion axle	●
AL-KO drawbar	●
AL-KO AKS	○
Aluminum alloy wheel hub	●
DUNLOP (205/55R16)	●
Electric leveling corner steadies	●
Body	
Vehicle-grade aluminum-steel hybrid body	●
Vehicle-grade painting process	●
Front trunk (300L)	●
Electric pop up roof	●
Electric tailgate and lovers seats	●
Headliner leather upholstery (option)	○
Electrical system	
LiFePO4 battery (12V 314Ah)	●
Additional battery (12V 314Ah)	○
Solar hybrid charger-inverter (3000W)	●
Solar panel (360W) + MPPT (40A)	○
Dometic A/C (2700W)	○
Highland version diesel air heater (2000W)	○
Control system	
13 inch smart control screen	●
Electrochromic frosted privacy glass	●
Starry ceiling	○
360° Surveillance camera	○
HIFI Audio system (4-ways + Subwoofer)	○

Furniture and interior	Standard/Option
Vehicle-grade ABS injection-molded interior	●
Lightweight eco-friendly furniture (Aluminum alloy)	●
Yacht wood floor	●
Two-way roof vent ventilator	●
Smart aromatherapy system	○
Door fly screen	○
External tent	○
Awning	○
Kitchen and bathroom	
Flip top stainless water sink	●
Induction cooker	●
Slide-out kitchen with 4.5KW diesel stove	○
Elevating socket island with wireless charging function	○
Refrigerator (50L)	○
Portable toilet	●
Shower head	○
Shower tent	○
Others	
Power input port	●
Clean water tank (31L)	●
Gray water tank (23L)	●
Fire extinguisher (600mL)	●

— Breaking the Industry Rules

The body is innovatively manufactured with a **hybrid aluminum-steel material** through stamping process

Aluminum material for the body accounts for **80%**

Recyclable material for the body accounts for **85%**

The RV possesses the following

Advantages: safe, strong,
Lightweight design and
formaldehyde-free.

We bring passenger
vehicle craftsmanship
to the RV industry,
which significantly
increases the safety
and durability of the
vehicle.

Incorporates Advanced Technologies into Production Process

- Automated Stamping and Welding
- Nuclear Submarine-grade Hot Forming Press (HFP)
- Aerospace-grade Self-Piercing Riveting (SPR)
- Flow Drill Screws (FDS)
- Laser Welding
- Other cutting-edge manufacturing techniques
- Light-weight and eco-friendly interior materials
