

Measuring The World
Ode To Freedom

VETERAN-350

- SAFE
- DURABLE
- ECO-FRIENDLY
- SMART

— Exquisite Life Experience

Dare to explore, dare to dream. We all share a longing - like migratory birds chasing the warmth, to set off on an extraordinary journey amid forests, deserts or starry skies; to break free from constraints and embrace the unbridled freedom that belongs solely to us.

We pursue perfection to craft one-of-a-kind life experiences. Our RV boasts a distinctive silhouette and robust off-road capabilities, striking a bold stance to encounter the tender of the wilderness.

Built with steel-aluminum hybrid body enhances structural rigidity while reducing overall weight; equipped with independent off-road suspension and chassis brings unrivaled off-road living experience.

— Ingenious Styling Design

- **Super powerful off-road chassis and all terrain adaptability :**
The RV handles complex terrains like mud and gravel, ensuring unobstructed path for your off-road journey.
- **Sturdy and durable body :**
With high-strength body design, the RV has no fear for bumps or scrapes, acting as a reliable guard for your adventure with its tough body.
- **Comprehensive living facilities :**
Assembling daily life and adventure, the RV is fully equipped with amenities, creating a comfortable mobile campsite, and allowing camp anytime, anywhere.

VETERAN-350 off-road trailer, especially built for extreme exploration. On the strength of professional off-road configurations, rugged vehicle body and comprehensive living facilities, the RV tackles complex terrains with ease, and delivers a reliable mobile home for outdoor adventure enthusiasts.

— Design That Serves Life

Equipped with foldable multi-functional devices, of which the flexibility in forms fits various usage scenarios, saving living space.

The interior alteration emphasizes comfort and practicality. The internal extra-large king-sized bed and multi-functional operating platform also serves as storage, as well as dining table or office desk, meeting various needs.

— Design Details

The rear 500L extra-large storage trunk transforms into a small platform, handles both cooking and storage.

Frameless vehicle-style windows open a panoramic view, showcases a hard-style aesthetics.

Unconventional design with a "left and right" double-opening doors, convenient for entry and exit.

— Breaking the Industry Rules

The body is innovatively manufactured with a **hybrid aluminum-steel material** through stamping process.

Aluminum material for the body accounts for **66%**

Recyclable material for the body accounts for **89%**

The RV possesses the following advantages:

safe, strong, lightweight design and formaldehyde-free.

We bring passenger vehicle craftsmanship to the RV industry, which significantly increases the safety and durability of the vehicle.

Incorporates Advanced Technologies into Production Process

- Automated Stamping and Welding
- Nuclear Submarine-grade Hot Forming Press (HFP)
- Aerospace-grade Self-Piercing Riveting (SPR)
- Flow Drill Screws (FDS)
- Laser Welding
- Other cutting-edge manufacturing techniques
- Light-weight and eco-friendly interior materials
